1. INTRODUCTION :

The Ministry of Women & Child Development is the nodal Ministry for ensuring welfare of children. This is envisaged to be accomplished by way of legislation, policy & schematic interventions along with coordination with other Ministries and Organizations. The National Children Policy, (as revised in 2013), and the National Plan of Action for Children, 2016 laid down the policy framework for child welfare and protection. The Indian Parliament has passed several landmark legislations in favor of children like the Juvenile Justice (Care and Protection of Children) Act 2015, the Protection of Children from Sexual Offences Act 2012, the Commissions for Protection of Child Rights Act, 2005, the Prohibition of Child Marriage Act, 2006 and the Right to Education Act 2009. India is also a signatory to important international treaties i.e., the United Nations Convention on Rights of Child and the Hague convention on Adoption of children which mandate systemic development and strengthening of juvenile justice system in the country.

Mission Vatsalya is a roadmap to achieve development and child protection priorities aligned with the Sustainable Development Goals (SDGs). It lays emphasis on child rights, advocacy and awareness along with strengthening of the juvenile justice care and protection system with the motto to 'leave no child behind'. The Juvenile Justice (Care and Protection of Children) Act, 2015 provisions and the Protection of Children from Sexual Offences Act, 2012 form the basic framework for implementation of the Mission.

Prior to 2009-10, there were three schemes being implemented under the Ministry namely,

- (i) Programme for Juvenile Justice for Children in need of care and protection and Children in conflict with Law ;
- (ii) Integrated Programme for street children ; and
- (iii) Scheme for assistance to homes for children (Shishu Greh).

All the three schemes were incorporated in a single centrally sponsored scheme called the Integrated Child Protection Scheme (ICPS). The ICPS was implemented by the Ministry since 2009-2010. The scheme was then renamed as "Child Protection Services" Scheme in 2017. The CPS Scheme has been now subsumed under Mission Vatsalya from 2021-22 onwards.

1.1 Vision :

To secure a healthy & happy childhood for each and every child in India, ensure opportunities to enable them to discover their full potential and assist them in flourishing in all respects, in a sustained manner. Mission Vatsalya promotes family-based non-institutional care of children in difficult circumstances based on the principle of institutionalization of children as a measure of last resort.

1.2 Mission :

To foster a sensitive, supportive and synchronized ecosystem for children as they transit different ages and stages of their development. This is envisaged to be done by strengthening the institutional framework of child welfare and protection committees and the Statutory and Service delivery structures in all districts of the country. While children in difficult circumstances are to be addressed by the Statutory and Service Delivery Structures, equal emphasis is to be given to issues around child welfare and protection at the community level integrated with the local development plans and corresponding budgets. Thus, it is envisaged that the committees under the institutional framework will complement the Statutory and Service Delivery Structures in terms of advocacy, awareness generation, capacity building and preventive measures to build a robust child friendly ecosystem in the community.

The Mission aims to :

- (i) Support and sustain Children in difficult circumstances;
- (ii) Develop context-based solutions for holistic development of children from varied backgrounds;
- (iii) Provide scope for encouraging innovative solutions;
- (iv) Cement convergent action.

1.3 Objectives :

- (iii) Ensuring Children's right to Survival, Development, Protection and Participation.

- (v) To ensure appropriate inter-sector response at all levels, coordinate and network with all allied systems to promote convergent efforts for seamless service delivery to children.
- (vi) To strengthen child protection at family and community level, equip families and communities to identify risks and vulnerabilities affecting children, create and promote preventive measures to protect children from situations of vulnerability, risk and abuse.
- (vii) Encourage private sector partnerships and interventions to support children within the framework of law.
- (viii) Raise public awareness, educate public about child rights, vulnerabilities and measures for protection sponsored by government and engage community at all levels as stakeholder in ensuring the best interest of children.
- (ix) To build capacities of duty holders & service providers at all levels.
- (x) Monitor progress on objective parameters against well-defined Outputs and Outcomes, and
- (xi) Participation of Panchayats and Municipal Local Bodies at the village level and at the ward and the urban cluster level within the urban municipal ward, for sustained assessment of the issues deserving attention, implementation of appropriate interventions, regular monitoring to develop a robust social safety net for children.

- (vii) In case the child and family are unable to adjust (if the child has been released from a CCI) even after being with each other for at least three months.

The Protection Officer (Non-Institutional Care) should place before the SFCAC the current situation of the child and family and reasons for possible termination of the service and seek its advice for further action on behalf of the child.

If the SFCAC decides to terminate the sponsorship, it may recommend alternate care and rehabilitation measures for the child, if required. This may include an alternative placement whichever is in the best interest of the child. This recommendation will be placed before the CWC. The CWC will then cancel or discontinue the sponsorship and close the case file of the child. In such a case the Protection Officer (NIC) would approach the CWC for suitable placement of the child.

4.3 After Care :

The Juvenile Justice (Care and Protection of Children) Act, 2015, provides for After Care of Children living under the Institutional care vide Section 2(5) and section 46 which mandates that *“Any child leaving a child care institution on completion of eighteen years of age may be provided with financial support in order to facilitate child’s re-integration into the mainstream of the society in the manner as may be prescribed”*.

After Care is meant for all young persons, who during their childhood have grown up in any form of Alternative Care such as children’s Homes, Observation Homes, etc., or fit facilities and had to leave them upon attaining 18 years of age. This transition for a young person leaving the childcare setting and moving to independent living throws up various challenges as well as offers opportunities as they go through these situational and emotional changes. This transition period is a delicate period because if young persons’ remain unsupported during this time, opportunities available to them may be lost.

The State Government shall prepare a programme for children who have to leave Child Care Institutions on attaining eighteen years of age by providing for their education, giving them employable skills and placement, industry apprenticeship, loan support for starting business as well as providing them places for stay to facilitate their re-integration into the mainstream of society. Such plan may be preferably made when the child attains 16 years of age and implemented once she/he becomes 18 years of age.

4.3.1 Criteria for receiving After Care :

Each young person who has turned 18 years of age and who has been cared and protected in any formal or informal form of alternative care as a child (i.e., under the age of 18); such care being either child in need of care and protection as well as to children in conflict with law and is in further need of close support shall be provided with close and continued long term After Care services and facilities in the manner laid down in these guidelines.

4.3.2 Duration of After Care :

After Care support shall be provided to young person after completion of 18 years onwards for a maximum of three years (till 21 years of age) and may be extended till 23 years of age (in exceptional cases) or till the young person is mainstreamed into the society, whichever is earlier.

4.3.3 Financial Norms :

Financial support of ₹ 4,000 per month per child shall be provided to Child Care Institutions/ organizations/individuals interested in providing After Care to fully implement the Individual After Care Plan (IAP) for meeting the basic needs including food, clothing, health care and shelter ; age appropriate and need based education and vocational training, stipend, and any other requirements of the young person. The main focus of After Care shall be to help the young persons’ gain skills for increasing their employability and enable them to adapt to life in the society.

The State Government may provide additional financial support to such young persons in addition to the central support through convergence of various schemes for the youth. Some of the relevant ministries/departments are those pertaining to housing, higher education, skills development, sports, youth affairs, social justice, tribal development, department of financial services, department of industries, etc.

Additionally, citizen sensitization will also be an important component of the Mission to promote community ownership and ensure sustainable implementation of the Mission.

6. OTHER INITIATIVES

A series of new initiatives have been undertaken to complement the existing system for child welfare and child protection in the country. Approximately 2% of the total cost has been provided to take up essential activities such as SAMVAD, Grading of CCI, National Resources Centre at NIPCCD, Child Survey, Child Index, Capacity Building exercises etc. An illustrative list of activities proposed to be undertaken by the Ministry, is mentioned below :

- (i) **SAMVAD:** The Ministry has launched Support, Advocacy and Mental health Interventions for children in Vulnerable circumstances And Distress (SAMVAD) centre under a project in collaboration with NIMHANS. Mental health of all children, especially those in distress conditions is a major concern. Not only children, but their care givers also need counselling support during the course of engagement with these children. It is proposed to facilitate counselling through engagement with apex medical health institutions in the country for building capacities in psycho-social counselling care which is necessary for both children as well as care givers. Mission Vatsalya aims to further expand the initiative by engaging with other suitable Institutions and leveraging the experience/learning's from SAMVAD and replicating similar Centres in other parts of the Country.

- (ii) **Grading of Child Care Institutions:** The State governments shall take up exercise to grade each Child Care Institution (CCI) at fixed intervals. The grading shall be done based on Infrastructure, quality of services, well-being of children especially in terms of health and education, restoration and rehabilitation of children, inter alia. The grading of CCIs including designing of parameters and indicators will be carried out in consultation with National Institute of Child Development and Public Cooperation (NIPCCD).
- (iii) **Supporting National Child Resource Centre at National Institute of Public cooperation and Child development;** The National Child Resource Centre within NIPCCD (Headquarters) will be strengthened for complimenting the Mission by way of providing technical inputs and facilitating academic research on issues concerning children. The purpose of Resource Centre will be to create a knowledge hub to provide technical guidance to various stakeholders under child protection system to strengthen child protection services and child welfare services.
- (iv) **Conducting a National Child Survey and development of Child Index in collaboration with Ministry of Statistics and Programme Implementation (MoSPI);** The National Child Index and Child Survey are proposed to be designed and implemented in convergence with Ministry of Statistics and Programme Implementation (MoSPI). It is necessary to map the needs of children through a periodic Child survey, so as to ensure suitable response in terms of policy, programmes or projects. With the help of the Child Index, performance of various Districts, States and UTs will be evaluated and specific needs/areas will be identified for designing targeted interventions.
- (v) **Child Protection Awards:** Child Protection Awards are proposed to recognize the dedication and hard work of staff working across all areas of the child protection programs in States/UT's, by acknowledging their work, commitment and excellence and leadership of the highest standard. The Awards shall be given based on the recommendation of the State Government and UTs.
- (vi) **Research and documentation:** All States/UTs will carry out need-based research and documentation activities at their level in order to analyse the ground level situation affecting the welfare and protection of children and applying possible solutions.
- (vii) **Publication of Newsletters:** The Ministry along with all States and UT Governments would publish newsletters bi-annually highlighting their achievements and best practices in the field of child welfare and child protection. These newsletters should emphasize the efforts that any State/UT government may have taken for convergence of the scheme with other important stakeholders. The purpose of these newsletters will be to raise public awareness about child rights, welfare and steps being undertaken by the government to ensure well-being of the child at every stage by involving community at all levels. States/UT Governments should upload the Newsletters on the portal.
- (viii) **Engaging Volunteers:** To encourage public participation, develop synergy in efforts, promote collaborations with academic institutions/Universities from internships, exchange programmes under the Mission for fostering linkages and utilize the resources available for success of the mission, the civil society, people's groups and various volunteering organizations can be encouraged to participate in under Mission Vatsalya in a systematic and planned manner. The organizations under any Government initiative like Bharat Scout and Guide, NSS Volunteers, Nehru Yuva Kendras etc., or the NGOs, Self-Help Groups etc., which are already working for the similar objectives, may be identified.
- (ix) **Child Budgeting:** Mission Vatsalya takes cognizance of the fact that a large number of schemes are being implemented for people, irrespective of age or gender. However, since the facilities or services are created with an adult perspective, they are often unable to complement the need of children. For example, the drinking water taps in public places are mostly at a height not suitable for children. As a result, a considerable number of young beneficiaries are unintentionally deprived of the services. It is necessary to have a child sensitive orientation while building public facilities or providing common services. Under Mission Vatsalya, all the Ministries, departments and States shall be pursued to adequately invest for children under their schemes and maintain a child sensitive disposition while designing the programmes.
